

# Welcome to Vanna.AI

Your AI-powered copilot for SQL queries.

You

Who are my top 3 clients having max portfolio values and give me the name of Advisor managing them

```
SELECT TOP 3
    c.Name AS ClientName,
    av.Name AS AdvisorName,
    cp.TotalPortfolioValue
FROM
    ClientPortfolioValue cp
JOIN
    Clients c ON cp.ClientID = c.ClientID
JOIN
    Advisors av ON c.AdvisorID = av.AdvisorID
ORDER BY
    cp.TotalPortfolioValue DESC;
```

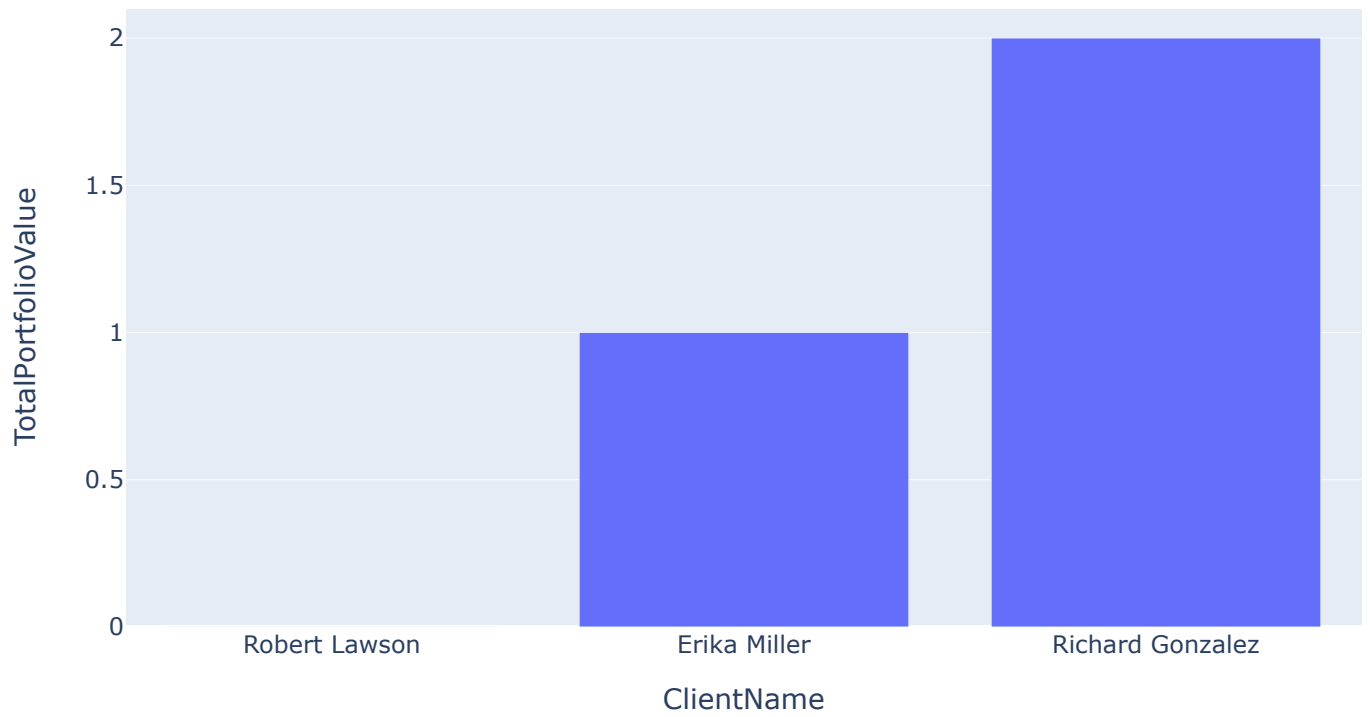

CLIENTNAME	ADVISORNAME	TOTALPORTFOLIOVALUE
Robert Lawson	Tracey Williamson	97192.693803
Erika Miller	Brian Johnson	95860.919392
Richard Gonzalez	Brian Johnson	93643.354282
